EDUCATION

Computer Programming
Ege Üniversitesi
2021- 2023

EXPERTISE

Angular

Javascript,TypeScript

HTML5, CSS3 ,SCSS

C#, .Net

ASP.NET Core

RESTful API

MSSQL, T-SQL, Stored
Procedures Git, Azure

DevOps,
Postman, Swagger

DevExpress,DevExtreme

Syncfusion

LANGUAGE

- English(Fluent)
- Turkish(Native)

PROFILE

A passionate Full-Stack Developer with 2 year of experience, skilled in designing, building, and maintaining responsive web applications. Proficient in Angular, C#, and MSSQL, with a focus on creating scalable and maintainable solutions. Eager to continue learning and contribute to innovative development projects.

WORK EXPERIENCE 2023 -2025

Fol Yazılım A.Ş Junior Software Developer

Frontend Development:

Developed high-performance, responsive, and dynamic user interfaces using Angular, JavaScript, and TypeScript. Built modern and mobile-friendly layouts with HTML5, CSS3, and SCSS, ensuring a seamless user experience.

Backend Development: Created secure and scalable RESTful APIs using C# and ASP.NET Core, following layered architecture principles to produce reusable and maintainable codebases.

Database Management: Designed and optimized relational databases using MSSQL and T-SQL. Improved query performance and ensured data integrity through the use of Stored Procedures, indexing, and normalization techniques.

ERP Project – River Yazılım:

Technologies: Angular, C#, .NET Core, MSSQL, DevExpress, DevExtreme, RESTful API

Roles & Contributions:

- Actively participated in the development of a no-code ERP system that enables enterprise users to design business processes without any programming knowledge.
- Contributed to modules that allow users to create drag-and-drop based workflows and custom forms through a visual interface.
- Developed features supporting automation setup, data export, form design, and workflow management capabilities.
- Implemented dynamic column structures, filtering, validations, and user-friendly UI/UX enhancements on both frontend and backend.
- Took part in testing, debugging, and performance optimization of key modules across the system.

Freelance Projects

<https://gasflow.co>

<https://nisainoxmakine.com>

<https://akdoramuhendislik.com/>

Developed a 3D interactive presentation website for showcasing the functionality of a natural gas regulator, using Three.js for realistic 3D modeling and animations.

Optimized website performance for cross-platform compatibility and responsiveness
